STRATEGIC FOCUS AREA 3

Promote trustworthy and transparent practices in the use of
real world MS data

Dipak Kalra

dipak.kalra@i-hd.eu

President

The European Institute for Innovation through health data (i-HD)

<https://www.i-hd.eu/>

Our approach

Our aim is to promote the wide implementation of trustworthy and transparent data sharing principles. We do this by:

- Informing data custodians about the importance and mechanisms for safely and respectfully sharing data
- Educating about best practices in big data handling

Educational sessions, later supported by online resources

First topics will be:

- Data Protection, General Data Protection Regulation (GDPR), legal basis and the appropriate role of consent
- Data Quality assessment and improvement
- Interoperability standards and common data models
- Federated architectures, distributed querying, information security
- Patient engagement in care and research
- Data sharing practices and FAIR principles (= Findable, Accessible, Interoperable and Re-Usable)
