

Aerospace Big Data Conference

December 2017 | London, UK

ROUND UP REPORT

The inaugural Aerospace Big Data Conference delivered lively discussions and debate on how the industry is changing and the emerging role of Big Data. Key players like Airbus, Boeing, GE Aviation, Pratt and Whitney and Qatar Airways all took to the stage to give their views on questions such as “Who owns the data? How do you bring your employees along with you? What’s the future?” Watch the highlights video to find out more.

CONFERENCE OVERVIEW

A good first step in the topic as some concrete results have been well explained by some experts (eg data scientists)

Jacques-Oliver Guichard
Air France

A very insightful event due to the full range of participants and the first conference of its kind.

Bjoen Sudeck
Liebherr-Aerospace
Linden

The most comprehensive Aerospace Big Data event of the year with digital solutions depth and audience breadth. The facilitation was also great. thank you again for your persistence to work with the GE Team to fit into the year-end rush

Ivan Hutter
GE Aviation

The place to be to meet the shakers in Aviation Big Data

Jaime Baringo
Airbus

Good networking opportunities and passionate discussions

Royston Phoon
Singapore Airlines

An insightful discussion into collection and use of bulk real-time data

John Brooks
FLYdocs

Great pool of specialists in an exquisite environment

Joel Ferreira
TAP Air Portugal

Got right to the heart of the opportunity that analytics / big data present & industry challenges that need to be overcome to unlock it

Shiv Trisal
UTC Aerospace
Systems

Good content: more of it next time please

Jonathan Newman
Caravelo

Packed with content and networking opportunities

72 Companies

15 Unique airlines

22 Countries

20 Speakers

108
Questions asked on slide

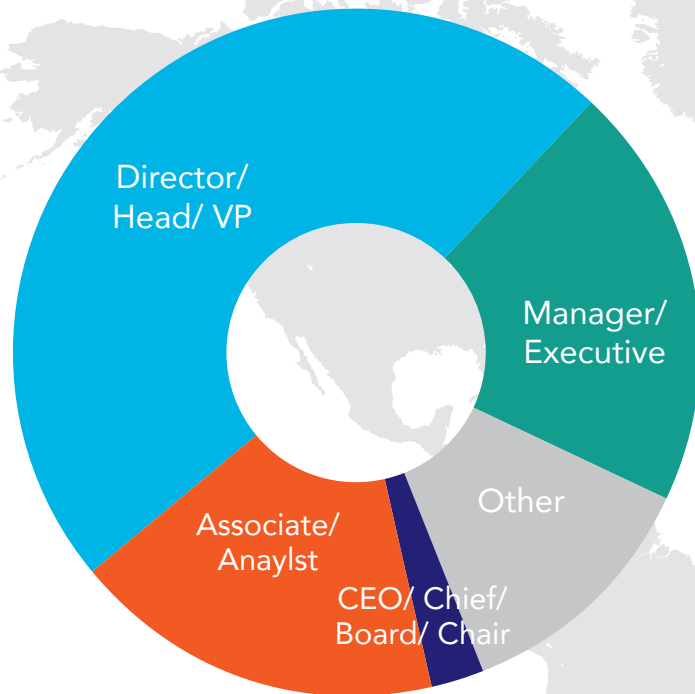

8 Networking hours
