

Innovating for a Healthier World: Trade Mission to India

10 - 14 December 2018, Bengaluru, New Delhi & Mumbai

Calling the best of British healthcare innovators to showcase their technology to healthcare providers and distributors in India.

The hospital industry in India stood at \$61.7 billion in 2017 and is expected to increase at a Compound Annual Growth Rate of 16-17 per cent to reach \$132.8 billion by 2023. The country has also become one of the leading destinations for high-end diagnostic services with tremendous capital investment for advanced diagnostic facilities. The UK and NHS are known for their innovation and expertise in healthcare, making this the perfect opportunity to showcase the UK's leading talent.

The FutureTech Festival: An India-UK Tech Partnership Initiative

A **thought-leadership summit on the 11th and 12th December 2018 in New Delhi**, bringing together business, policy makers, venture capitalists, scientists and entrepreneurs.

The FutureTech Festival was announced in April 2018 by India Prime Minister Modi and UK Prime Minister May as part of a wider India-UK Tech Partnership. The partnership brings together business, government and civil society from both India and the UK to tackle shared challenges (across energy, skills, ease of doing business and financial services) and deliver mutual prosperity by nurturing entrepreneurship, securing jobs and growth for the future. Through the partnership we will ramp up joint activity in AI/Data, Fintech, Future Mobility, Cyber Security and Healthcare AI, in addition to delivering an India-UK Tech hub and a range of state-regional cluster partnerships.

The missions to the FutureTech Festival will support this partnership in key sectors such as Agri-Tech, Creative, Healthcare, Life Sciences and Technology. The festival will attract the best and the brightest speakers, companies and entrepreneurs shaping the future and drive trade and investment initiatives.
