

# HOW ILOST WORKS

When you lose something, especially ***something of great value***, getting it back as soon and as fast as possible is the ***only thing you can think about***. A company who understands this also understands that ***time effectiveness*** and ***simplicity*** goes hand in hand. That is exactly how they "***turn that hassle into a smile!***"

## Found Item

Found something? Just ***take a photo***, write some unique details about the item that only the owner will know. ***Within seconds, it is searchable on iLost.***

## Owner found? Just match!

Do the item details correspond to the description in the claim message? Then ***match the owner with their valuable.***

## Pick up or Delivery?

Once there is a match, the only decision the owner has to make is decide to ***pick up the item*** in person or ***have it sent***. Digitally make an appointment or ***have it shipped anywhere in the world!***
