E-CRIMINAL CASE

E-CRIMINAL CASE

e-bankruptcy case

E-COURT SYSTEM

Before digitization

- paper interdocumentation/ paper loss
- high corruption risks
- prolonged administration
- less trust towards government
- overload of state entities
- lower voice of citizens
- the list can go on for 2 days

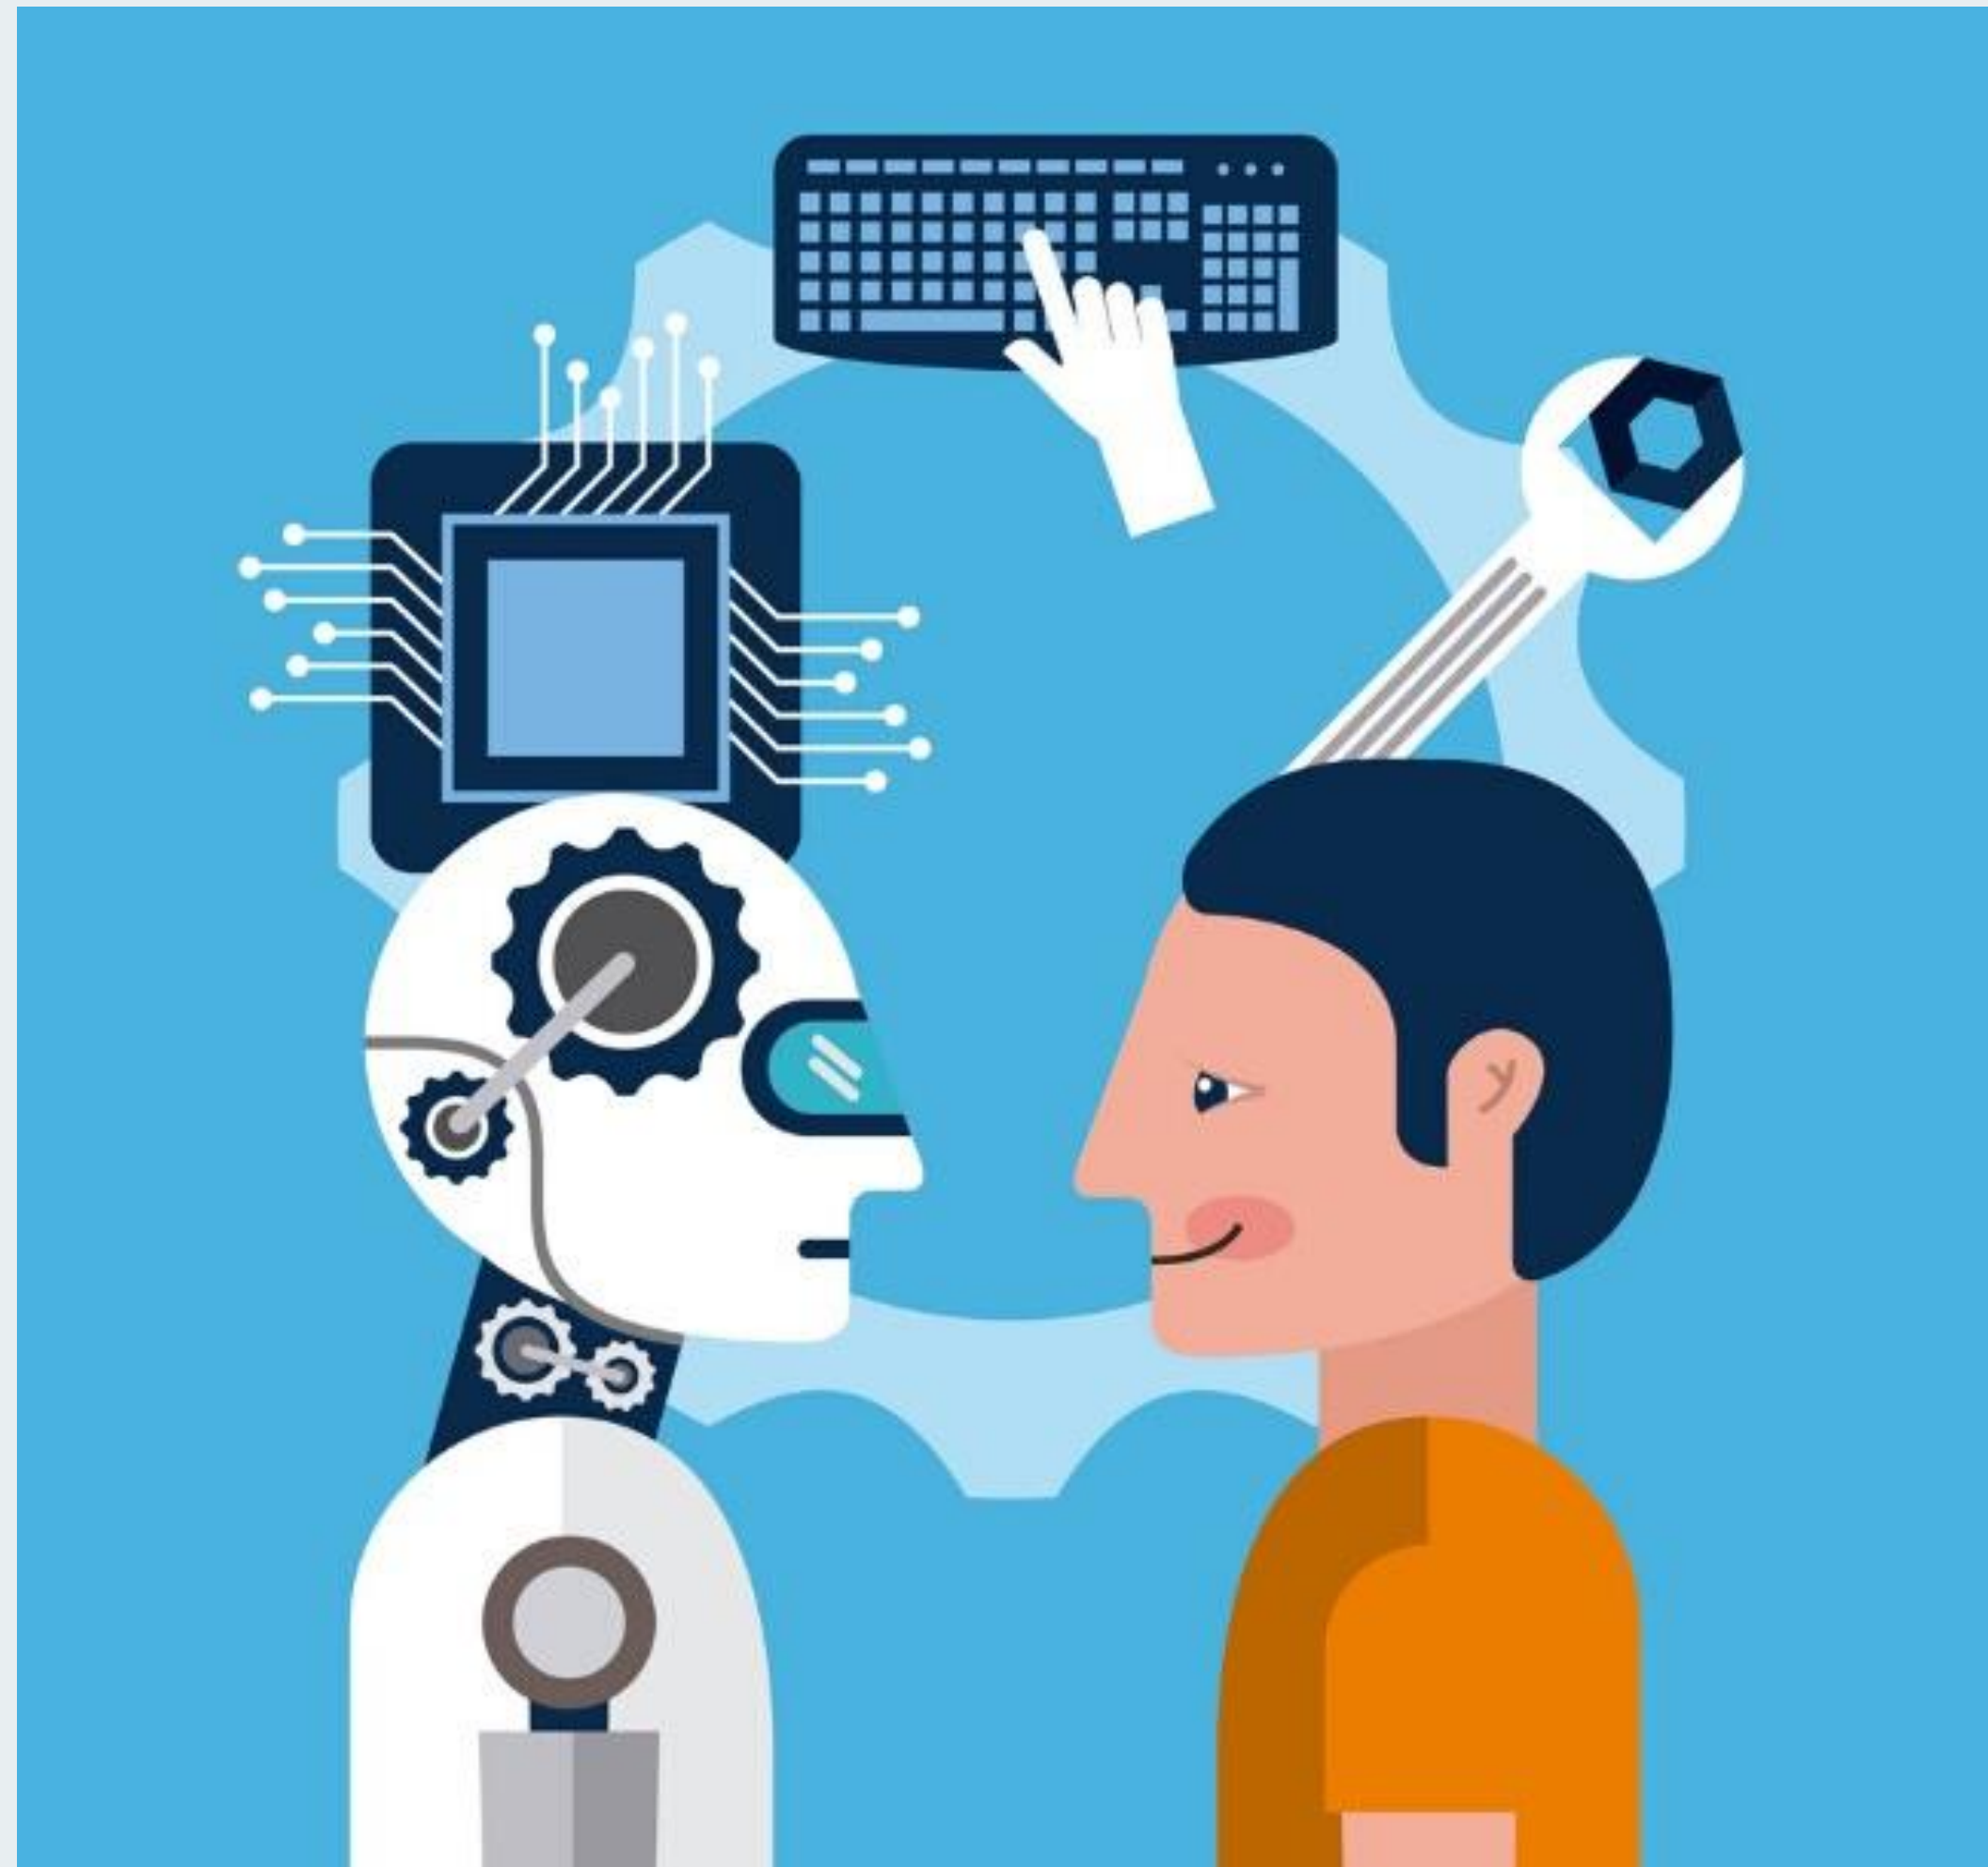

After digitization

- Reduction of state entities overload
- Improvement of the quality of rendered public services
- Time management
- Simplification of administration
- Reduction of waste of paper and financial resources
- public participation in decision making process

Artificial intelligence

Advantages and disadvantages of artificial intelligence

Advantages

24/7 availability

Day to day application

Right Decision Making

Less Room for Errors

Disadvantages

Dependency on Machines

Expensive to Implement

Restricted work

Leads to unemployment

No improvement in experience

SHOULD WE OR SHOULD WE NOT BE AFRAID OF AI
