About Janssen

At Janssen, we're creating a **future** where disease is a thing of the past.

We're the Pharmaceutical Companies of Johnson & Johnson, working tirelessly to make that future a reality for patients everywhere by fighting sickness with **science**, improving **access** with ingenuity, and healing **hopelessness** with heart.

We focus on areas of medicine where we can make the biggest difference: **Cardiovascular & Metabolism, Immunology, Infectious Diseases & Vaccines, Neuroscience, Oncology, and Pulmonary Hypertension.**

FACTS & FIGURES

JANSSEN FACTS & FIGURES

In 2018 we invested

1,530 BILLION EURO
IN R&D

INVESTMENTS IN BELGIUM

By investing in innovation and the optimization of our production processes, we are ready for the challenges of tomorrow. Some examples of this are the optimization of our supply chain, the continuous production line and the Labs In One Network (LION) project, a high-tech laboratory environment.

18 NEW MEDICINES
launched worldwide since 2011.

Our worldwide investments in R&D **RANGE AMONG THE HIGHEST** in the pharmaceutical industry.*

GREEN ENERGY

By 2050, we want to be completely CO₂ neutral. This will be achieved using our deep geothermal power plant in combination with our unique heat network. The final system will be ready for use in 2021. We are the first - and so far the only - private company in Belgium to use this concept on this scale for its own energy supply.

In 2018, Janssen conducted

113 CLINICAL STUDIES
in Belgium.

18 MEDICINES
on the List of Essential Medicines of the **WHO**
(World Health Organization).
