

AI Empowering Life Science Global Summit 2019

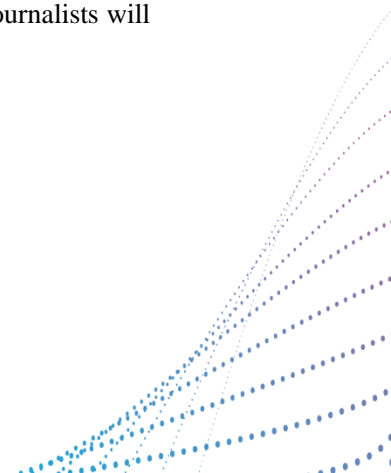

Embracing Artificial Intelligence, Seeking Human Health

Shanghai, August 30, 2019

I. Overview

World Artificial Intelligence Conference 2019: Approved by the State Council, the Conference is jointly organized by the National Development and Reform Commission, the Ministry of Science and Technology, the Ministry of Industry and Information Technology, the State Internet Information Office, the Chinese Academy of Sciences, the Chinese Academy of Engineering, and the Shanghai Municipal People's Government and is co-organized by the Shanghai Municipal Commission of Economy and Informatization, the Shanghai Municipal Development and Reform Commission, the Shanghai Science and Technology Commission, Shanghai Internet Information Office, the People's Government of Pudong New Area of Shanghai Municipal, the People's Government of Xuhui District of Shanghai Municipal, and East Best & Lansheng (Group) Co., Ltd. On the basis of 2018, the Conference will be fully upgraded in 2019, taking the Artificial Intelligence to Drive High Quality Development as the major task, focusing on high-end, international, professional, market-oriented, and intelligent characteristics. It includes high-end forums (opening ceremony, 2000 participants), more than 50 thematic forums, and exhibition of new technology application and experience (at Hall 4 in Shanghai World Expo Exhibition, with an exhibition area of 15,000 square meters)

AI Empowering Life Science Global Summit 2019: It is a sub-forum of the World Artificial Intelligence Conference, which is organized by the World AI Conference Organizing Committee and co-organized by the Shanghai Economic and Information Technology Commission, the People's Government of Xuhui District of Shanghai Municipal, China Academy of Information and Communications Technology, etc., taking the Embracing Artificial Intelligence, Seeking Human Health as a theme. It is expected that there will be more than 1,000 stakeholders in the field of life health such as government leaders, members of medical organizations at home and abroad, medical health entrepreneurs, experts and scholars, industry investors, and journalists will present on the Conference.

II. Structure

Sponsor:

- Medical Management Service Guide Center under the National Health Commission

- World AI Conference Organizing Committee

Undertaker:

- China Academy of Information and Communications Technology
- Shanghai Health Commission
- The People's Government of Xuhui District of Shanghai Municipal

Co-organizers:

- East China Branch of China Academy of Information and Communications Technology
- Shanghai West Bund Development (Group)Co., Ltd.

III. Date/Time and Place

Date/Time: August 30 (Morning)

Place: West Bund Art Center Hall A, Xuhui District, Shanghai Municipal

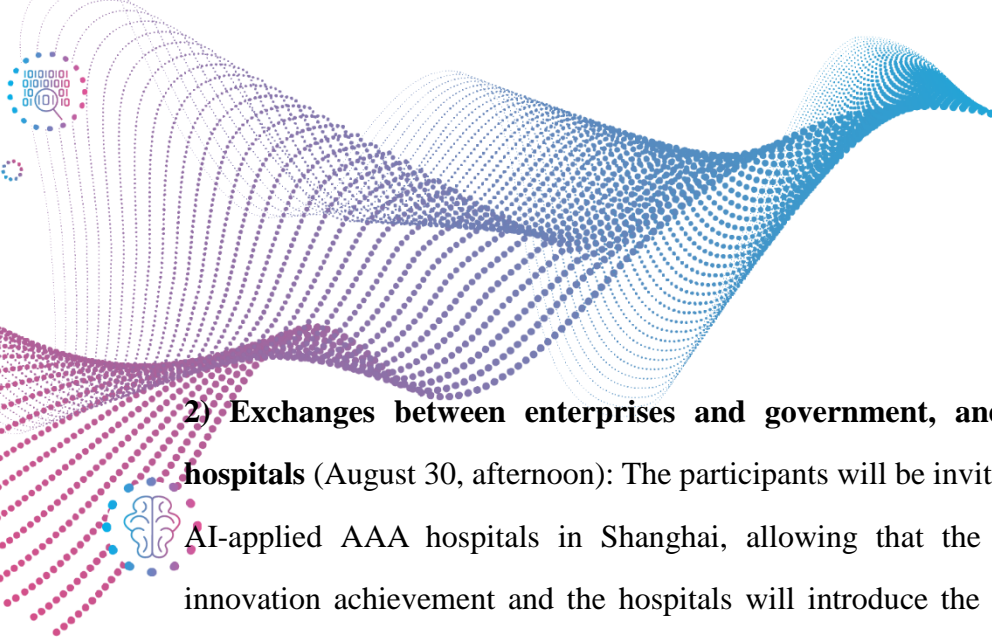

Theme: Embracing Artificial Intelligence, Seeking Human Health

IV. Main Activities:

The main activities of the Forum include Global Life Science Summit, exchanges between enterprises and government, and visiting AI-applied hospitals.

- 1) **AI Empowering Life Science Global Summit 2019**(August 30, morning). Taking Embracing Artificial Intelligence, Seeking Human Health as the theme, the Forum will discuss the development trend of international life health artificial intelligence, interpret the international policies and regulations on life health artificial intelligence, and seek solutions to the issues the development bottleneck of life health artificial intelligence.

2) **Exchanges between enterprises and government, and visiting AI-applied hospitals** (August 30, afternoon): The participants will be invited to visit the famous AI-applied AAA hospitals in Shanghai, allowing that the enterprises will share innovation achievement and the hospitals will introduce the practical experience to promote the exchange between the government and enterprises.

V. Agenda

August 30

08:30-12:30 **Opening Ceremony**

Theme speech

Inauguration Ceremony of the Domestic Working Group of ITU Focus Group on Artificial Intelligence for Health

To issue a white paper on the medical AI application

AI+ Inauguration Ceremony of Partnerships Between Medical Institutions

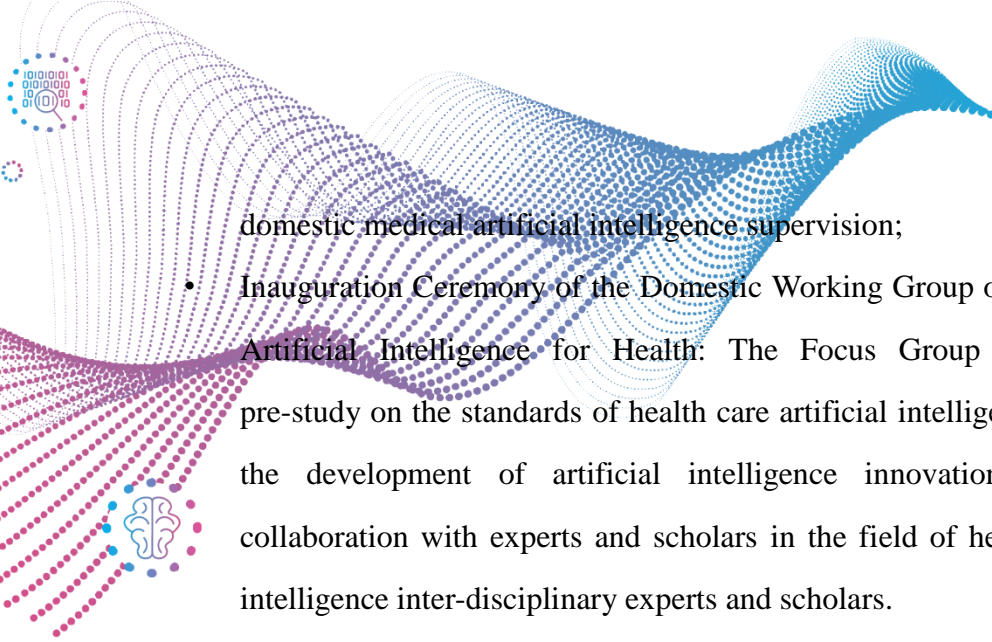

Round-table forum

14:00-17:00 Visiting AI-applied hospitals + Closing-Door Meeting

VI. Highlights

- Exchanges of international development trend: Experts and scholars from ITU and WHO and international experts and scholars will be invited to introduce global health AI **development trend and management measures**.
- Authoritative interpretation of domestic policy: The leaders from the Ministry of Industry and Information Technology, National Health Commission, and State Food and Drug Administration, etc. are invited to interpret the policies related to

domestic medical artificial intelligence supervision;

- Inauguration Ceremony of the Domestic Working Group of ITU Focus Group on Artificial Intelligence for Health: The Focus Group is committed to the pre-study on the standards of health care artificial intelligence to jointly promote the development of artificial intelligence innovation in health care in collaboration with experts and scholars in the field of health care and artificial intelligence inter-disciplinary experts and scholars.
- To issue the latest report on the study of medical AI: The National Health Commission and the China Academy of Information and Communications Technology will jointly issue the latest *White Paper on Medical AI Application*.
- AI+ Inauguration Ceremony of Partnerships Between Medical Institutions: Leading by the Xuhui District of Shanghai Municipal, an AI+ Medical Consortium will be jointly established by many medical institutions to create a leading area of artificial intelligence industry in Xuhui District.
- Exchange of medical artificial intelligence technology: Medical institutions and enterprises at home and abroad will demonstrate and exchange the latest technological achievements and application experience on medical and health artificial intelligence.
- More than 1,000 seniors from governments, pharmaceutical enterprises, universities, hospitals, capitals, etc. will attend the Conference.
- More than 50+ central media, Shanghai media, vertical technology, and medical media will report the Event and make special interviews.
