# FutureTech Festival

**GREAT** *for* **COLLABORATION**  
BRITAIN & NORTHERN IRELAND

## AGENDA

*11-12 December 2018, New Delhi*

**#GREATforCollaboration**

[events.trade.gov.uk/the-futuretech-festival](https://events.trade.gov.uk/the-futuretech-festival)

12 December 2018

Royal Ballroom Room, Hotel Imperial

0900-0930

## Inaugural & Keynote Remarks

Millions of interactions link India and the UK, from family to finance, sport to science, and with technology cutting across everything we do. This is recognised at the highest level by the strategic partnership between the UK and Indian Governments, which looks to capitalise on our existing connections so that millions more British and Indians can exchange and learn, travel, trade and thrive together.

Joining them on stage will be Ms Elizabeth Denham, UK Information Commissioner, Amitabh Kant, Chief Executive Officer, Niti Aayog, alongside the British High Commissioner who will share his views on the integral role of tech in our future bilateral partnership.

### Sir Dominic Asquith KCMG

British High Commissioner, British High Commission

### Matthew Gould

Director General for Digital and Media Policy in the Department for Digital, Culture, Media and Sport

### Amitabh Kant

Chief Executive Officer, Niti Aayog

### Aruna Sundarajan

Chairman Digital Communications Commission & Secretary, Department of Telecom, Govt. of India

### Elizabeth Denham

UK Information Commissioner

### K Ananth Krishnan

Chief Technology Officer at Tata Consultancy Services

0930-1045

## UKIBC host 'Data: The Foundation of Intelligent Economies'

Access to data is becoming increasingly important in the development of business and services, and India is rapidly becoming one of the most data-rich countries across the globe. At the same time, there is a need to strike the right balance between access to data, smart regulation, and individual rights to privacy and security, to make sure we have the right data frameworks to allow for the development of intelligent economies.

This televised session will bring together key senior UK and Indian leaders to debate the role of data in the development of the economies of the future, setting the scene for an inspiring day of learning, sharing and interactivity.

**This session will host CEOs, Vice Presidents, Directors and Founders from across the best of UK and Indian technology, ranging from large corporations to small to medium enterprises.**

*Expect to hear from: 3one4 Capital, AcornOakNorth, AGBT, AstraZenica, Aviva, BT, Carbonculture, Chalo, Control Risks, Equiniti, Flipkart, Founders Factory, G4S, Inmarsat, Max Bupa, Mobikwik, OCS, Orbo, People.io, PwC, RELX-Elsevier, Renishaw, Rolls Royce, Standard Life Aberdeen, Tevva Motors, TVS Logistics, Vidrona Ltd and Vodafone.*

12 December 2018

Royal Ballroom Room, Hotel Imperial

**1045-1125**

## Tech Talk I: The Big Picture

What are the critical issues defining global technology right now, and what is going to be driving the evolution of technology into the future? Hear leading UK and Indian technology luminaries debate some of the most important questions affecting how we WORK, LIVE and PLAY across the globe.

Moderated by Leslie D'Monte, National Technology Editor of Mint, the panel will host some of the biggest names in tech, leading business figures and world class academics. One not to miss.

**Leslie D'Monte**  
(Moderator)

National Technology Editor of Mint

**Dr Suket Singhal** Group CEO,  
Secure Meters

**Julian David**  
CEO, Tech UK

**Prof Dimitra Simeonidou**  
University of Bristol, UK

**Prof Matt Jones** Swansea  
University

**Laurence Kemball-Cook**  
CEO and Founder of Pavegen

**1125-1135**

## Launch – UK-India Fast Track Start-up Fund

The Indian start-up ecosystem has seen significant evolution in recent years. Start-ups are honing in on emerging technologies such as AI, Machine Learning and the Internet of Things to solve key challenges such as healthcare, education and financial inclusion. These innovations have the potential to create jobs, transform economies and enhance quality of lives, not only domestically, but also on a global scale.

In this session we are delighted to launch the UK-India partnership on start-ups. The UK Government, through the Department for International Development in India, will commit up to £38m to the Indian start-up ecosystem. The Government of India, through the Department of Industrial Policy and Promotion, will make a matching commitment of £20m from the Fund of Funds for Start-ups managed by SIDBI. We are pleased to have with us Mr. Ramesh Abhishek, Secretary, DIPP, who has been pivotal in shaping the start-up initiative in India. Joining him on stage will be Shri Mohammad Mustafa, Chairman and MD, SIDBI and Mr. Gavin McGillivray, Head of DFID India. They will share a few words marking the launch of this very important partnership.

**Shri. Ramesh Abhishek**  
Secretary of the Department of  
Industrial Policy & Promotion -  
Ministry of Commerce & Industry,  
Govt. of India

**Gavin McGillivray**  
Head, UK Department for  
International Development in India

**Shri Mohammad Mustafa,**  
Chairman and MD, SIDBI

12 December 2018

Royal Ballroom Room, Hotel Imperial

**1135-1155**

## Launch - UK-India Healthcare Artificial Intelligence Catalyst

Artificial Intelligence is set to transform healthcare provision across the globe and is already playing an important role in supporting diagnosis, treatment planning and ongoing patient management.

The UK Department of International Trade and NITI Aayog have come together to launch a £1m programme bringing the best of UK health AI technologies to India. Beginning in the new year, specially selected UK companies will be implementing their solutions in government hospitals and Primary Health Centres – helping to improve access to diagnostic tests, overcome workforce shortages, and lower healthcare costs.

Join Professor Sir Malcolm Grant, former Chairman of NHS England, to learn more about the HAIC and hear about plans for further waves of the programme over the coming year.

### Sir Malcolm Grant

Former Chairman, NHS England

### Crispin Simon

Her Majesty's Trade Commissioner to South Asia

### Anna Roy

Advisor, NITI Aayog

**1155-1210**

## Tea Break

**1210-1300**

## Diversity Roadmap in Technology: From Barrier to Frontier

On a day we celebrate technology, we must not forget the people enabling it. In this session about the *people* of tech, we will focus on the concerns around gender diversity in this domain. Are women underrepresented in the technology domain? When we think 'women in tech', what misconceptions might we have? How can we change and why must we change? Join panellists from across the private and public sector, from the UK and India, to host an interactive and inclusive debate in this session to explore some of these questions or raise new ones!

### Felicity Burch (Moderator)

Director of Innovation, Confederation of British Industry

**Anuranjita Kumar** Managing Director Human Resources, International hubs, RBS

### Pippa Hall

Director of Innovation and Chief Economist, Intellectual Property Office

**Vartika Jaini** Entrepreneur and Founder, Vriddhi Rural Prosperity Services

### Mausam Joshi

Plant Operations, MG Motor

### Kamakshy Velayudhan

Associate Vice President, HR, JCB Jaipur

### Samir Saran,

President of Observer Research Foundation

### Sumeet Agarwal ,

Assistance Professor of Electrical Engineering, IIT Delhi

12 December 2018

**1300-1400****Lunch****1400-1445**

**CBI- Invest India- Grant Thornton  
India LLP present: UK-India  
Partnership: Technology,  
investment and Innovation for  
future prosperity**

The UK and India have great potential to be equal partners in each other's prosperity with technology and innovation are important enablers for achieving this. Hear from the CBI Innovation Director Felicity Burch on how the UK and India can mutually gain from sharing key lessons and best practices to build a mutually beneficial future based on innovation. Invest India CEO Deepak Bagla will discuss Investments from the UK and how the UK-India investment relationship is evolving. He will also touch upon the Indian Innovation ecosystem with particular reference to AGNI, Startup India and the potential for UK – India partnership in start-ups. Grant Thornton India's CEO Vishesh C Chandiok will chair a panel discussion of UK and Indian companies who have made significant investments in each other's economies. The session will be summed up and closing remarks by the CBI International Director Ben Digby.

**Vishesh C Chandiok  
(Moderator)**

CEO, Grant Thornton India

**Sir Dominic Asquith KCMG**

British High Commissioner, British High Commission

**Deepak Bagla**

CEO, Invest India

**Kishore Jayaraman**

President, Rolls Royce India and South Asia

**Andrew Cowan,**

Chairperson,  
Manchester-India Partnership

**Jim Bligh**

Corporate Affairs Director, TCS UK&amp;I.

**Felicity Burch**

Innovation Director, CBI

**Ben Digby**

International Director, CBI

**Priya Guha (Moderator)**

General Manager, RocketSpace, London

**John Cronin**

Executive Chairman, Cyanconnode PLC

**Christopher Baker Brian**

Co-founder and Chief Technology Innovation Officer, BBOX

**B. V. R. Mohan Reddy**

Founding Director, T-Hub

**Sudhir Narang**

Managing Director, British Telecommunications India

**Ron Mobed**

Chief Executive Officer, Elsevier (RELX Group)

**Varghese Cherian**

Chief Business Officer, Engineer.ai

**1445-1545****Tech Talk II: The Living Bridge**

An impactful beginning to the afternoon, focussing on collaboration between the UK and India's best tech. This session brings together established multi national tech providers, from the likes of BT, with deep-tech experts from the likes of Engineer.ai and BBOX. The objective is to share learning, tech of the future and look at how large multinationals incubate and learn from lean, tech experts from the UK and vice versa. Ola will add a global 'unicorn' twist!

12 December 2018

Royal Ballroom Room, Hotel Imperial

**1545-1715**

## Technologies of the Future

This session will demonstrate the best of India-UK business partnerships, with speakers drawn from across India's top ICT companies and inward investors. Learn how Indian ICT companies are bullish about doing business in the UK, and hear our speakers debate on the diversity of the work being delivered by Indian ICT companies for their British customers. Here we explore the British landscape as a destination for Indian business, understanding what the UK has to offer for Indian businesses that are ready to go big!

### Vikram Singh (Moderator)

Strategic Head-Investment,  
Department for International Trade

### Vidya Srinivasan

Senior Vice President – Infrastructure,  
IT, InfoSec and Enterprise Risk,  
Genpact

### Shivendra Singh

Vice President & Head - Global Trade  
Development, NASSCOM

### Mark Slaughter

Director General-Investment,  
Department for International Trade

### Anand Verma

CEO and Founder, Brilliant Basics, an  
Infosys Company

### Sanjeev Nikore

President, Tech Mahindra

### Jim Bligh

Corporate Affairs, TCS

### G S Nathan

Emily Eden, Hotel Imperial

0930-1030

## Future Tech for all - Inclusive, Empowering Innovation in Urban and Rural India

Come and hear from 5 experts who have been working with and for communities across India to develop transformative technologies ranging from next generation voice assistants to locally managed solar energy infrastructures. All the projects were driven by a human-centred approach that puts people at the heart of technological innovation.

They will show how this strategy is not only good for society but great for business too, provoking new ideas that might have a worldwide market.

During the session they will demonstrate their innovations interactively and showcase videos to illustrate their points.

### Prof Matt Jones

Head of College of Science, Swansea University

**Prof David Worsley** Research Director SPECIFIC, Vice President (Innovation), Swansea University

### Prof Anirudha N Joshi

IDC School of Design, IIT Bombay

### Amit A. Nanavati

Senior Technical Lead for Cognitive Automation Solutions at IBM GTS Innovation Labs

### Alka Hingorani

Associate Professor, IDC, Executive Member, Tata Centre for Technology and Design, IIT- Mumbai

1100-1200

## Chase India present: The Future of Fintech

What opportunities do Fintech solutions present to the Indian financial services market? Critical sectors of the economy such as affordable housing, financial inclusion and the provision of land record management could reap huge benefits from this emerging sector but what are the challenges, and how do we develop regulatory interventions that can enable focussed intervention? We'll discuss these questions and more in this session, all set to a backdrop of possible areas for UK-India collaboration in the Fintech space.

### Kaushal Mahan (Moderator)

Lead – Technology Practice, Chase India

### Ram Mohan Mishra,

Additional Secretary, Ministry of Micro, Small & Medium Enterprises

### Dr. Renuka Sane

Associate Professor, National Institute of Public Finance and Policy (NIPFP)

### Bipin Preet Singh

Founder-CEO-Director, Mobikwik

### Suniti Nanda

Fintech Officer, Government of Maharashtra

### Alok Mittal

MD & CEO, Indifi

### Arnab Kumar

Innovation and Emerging Technologies at NITI Aayog, Government of India

### Natalie Toms

Economic Counsellor, British High Commission

12 December 2018

Emily Eden, Hotel Imperial

**1200-1300**

## The Future of Manufacturing

One of the major challenges in the commercialisation of innovation is to get academic research from the lab to the shelf in the market place, whether in the UK or India. What can we learn from the high value manufacturing catapults that have played a unique role in bridging this gap in the UK?

The India-UK Tech Partnership announced earlier this year aims to bring together the needs and capabilities of the UK and India to better enable us to work together to address common problems. This includes commissioning the Manufacturing Technology Centre in Coventry to examine the feasibility, delivery mechanisms, roadmap and funding for a potential UK-India Future Manufacturing Centre similar to the UK Catapults. Through a series of questions and discussions this interactive session calls on you - the audience, to generate ideas on the potential form of a UK and India Joint Centre and identify possible technologies for collaboration.

**1300-1400**

## Lunch

**1400-1500**

## Lawtech: Revolutionising Legal Practice

Don't miss this chance to hear some of the UK and India's most respected legal, industry and policy professionals discuss the latest trends from within the Lawtech space. How is technology revolutionising the legal profession across the world, how can Lawtech act as a catalyst for growth and investment and how can governments nurture an environment where Lawtech firms can flourish? Our panellists will debate these questions and more, sharing their experiences from the UK and India and drawing on the audience to create a lively and exciting debate.

### Corin Wilson (Moderator)

First Secretary Engineering,  
Department for International  
Trade, India

### Kishore Jayaraman

President, Rolls Royce India and  
South Asia

### Clive Hickman

Chief Executive at Manufacturing  
Technology Centre Limited

### Dr. Nagahanumaiah

Director, CMTI

### Christina Blacklaws (Chair)

President, The Law Society of England  
and Wales

### Gopal Subramaniam

Senior Advocate, Supreme Court of  
India

### Rajeev Chopra

Managing Director, Global Delivery  
Network & Legal Lead in India,  
Philippines, Sri Lanka & Bangladesh  
Accenture

### Priti Suri

Founder and Managing Partner  
PSA Legal Counsellors

### Dr. Alok Srivastava

Secretary, Department of  
Legal Affairs, Government  
of India

### Michael Cruz

Managing Director, LexisNexis India

### **Centre for Policy Research: A Session on Big Data**

Big data can provide valuable insights for governance and innovation in today's world. But when talking data, conversations can carry a heavy focus on privacy and data protection.

This session will aim to bring more balance to the conversation by focussing on the potential that big data offers to address common global problems, and the innovative policies and collaborations that can provide the landscape for change.

### **Ananth Padmanabhan (Moderator)**

Fellow, Centre for Policy Research

### **Dr. Avik Sarkar**

Head - Data Analytics Cell, NITI Aayog

### **Bishakha Bhattacharya**

Government and Regulatory Affairs, IBM

### **Perna Mukharya**

Founder, Outline India

### **Mr. Berges Malu**

Head - Public Policy, ShareChat

**1645-1900**

### **UK India Leadership Forum**

As part of the UK's approach to healthcare innovation, this session is a closed door event for the best of UK companies to pitch their ideas to top healthcare CEOs for the opportunity to partner, invest and expand. The companies will present innovative digital healthcare or AI-based software solutions that aid early diagnostics and support lifestyle improvements, including integrated 'smart device' solutions that aid disease management.

### **Closed Door**

12 December 2018

Zone 1 - WORK, Hotel Imperial Lawn

**1100-1200**

## NASSCOM presents Future Skills: An industry-driven learning ecosystem

The emergence of new and scalable technologies of the future determines not only the way we do business today but will change the future of work. Of the 4.5 m people employed in the IT-ITES industry today, 1.5-2 m are expected to require reskilling in the next 4-5 years.

In recognition of this need, the Future Skills platform - a NASSCOM initiative, was launched by Prime Minister Modi earlier this year. This interactive session will highlight the importance of reskilling to meet the future demands of new technologies, and will explore the platform - including a live demo for those who can attend! Expect an impactful session that brings together both suppliers and end users around the same table, to take a look at how the platform has been created and received in a way that delivers real skills benefit.

### Divya Gupta (Moderator)

Partner and Solutions Lead,  
NASSCOM

### Amit Aggarwal

Sector Skills Council, CEO  
NASSCOM

### Amit Goyal

Head, Edx, India & South Asia

### Anurag Seth

Vice President & Head of Talent  
Transformation, Wipro

### Sanjeev Kumar

Business unit Head – Smart Cities &  
IoT (Internet of Things), Tech  
Mahindra

### Karl Mehta

Founder & CEO Edcast Inc.

**1200-1300**

## Future @ work – Uncertain Tomorrow?

Technology is constantly changing the way we communicate with our co-workers, business partners, vendors and customers. Today the internet is in the hands of billions, transforming the way we connect, collaborate and get work done. It's no doubt that businesses who use these technologies to their advantage are the businesses that will succeed now and in the future. Hear about how the world of work is embracing technology to enhance the way we do business, creating the work environments of the future.

### Mark Beresford (Moderator)

Sector Specialist – Technology, DIT UK

### Dr Mike Short

Chief Scientific Adviser, DIT

### Prof Sethu Vijaykumar

Professor of Robotics, University of  
Edinburgh

**1300-1345****Lunch****1345-1500****Indian Angel Network present: The Future of Investment**

India's start-up ecosystem is looking at the start of another boom cycle and the world's approach towards India has seen a drastic change over the last few years, with global investors saying the India economy is going to grow even bigger than predicted. At the same time, India finds itself in a unique global position at the fountain head of a digital revolution, where it is now the new norm to have a bank account, a mobile phone and a unique identity. What does this mean for the future of investment and entrepreneurship in India, and how is technology playing its role? Find out more in this session, brought to you by the Indian Angel Network.

## In the Event of a Cyber Attack...Are you ready to respond?

In today's digitally hyper-connected world, we should no longer be asking 'can a cyber-attack happen to us?' - the answer is yes. Instead, the question should be 'are we ready to respond?'

A poor response can be more damaging than the attack itself. Join this session to hear experts from a range of backgrounds discuss how to respond to a cyber-attack - as the attack unfolds. The debate will highlight the need to take a multi-stakeholder approach, and will promote solutions to help deal with an attack at any stage from mitigation, protection, detection and analysis all the way through to recovery. With the cost of data breaches forecast to increase to over £6 trillion globally by 2022, make sure you are ahead of the curve!

### **Kanishk Gaur (Moderator)**

## Convergence of Technologies That Will Shape the Future

Picture this! One fine morning as you wake up and set out to start your day, you realize that the spectacles resting on your nose is actually playing games with your mind – quite literally and figuratively. Yes, Ben Franklin's invention today can serve as a gateway for a completely immersive and disruptive world of technological amelioration; one that allows convergence across devices and also extends its advantages to a myriad of business sectors.

We are announcing the dawn of an era where augmented reality (AR), virtual reality (VR) and artificial intelligence (AI) are making headways, opening the world to a plethora of possibilities that can serve humanity and businesses in a holistic and profound manner. Immerse in an environment that showcases the convergence of technologies that will shape our future – an Immersive Tech powered live event setup that will involve the experts, the audience and online participants in a live conversation – delivered by employing Immersive Tech, AI and ML. To know more, join us in this dialogue with a difference.

## Tech-Led Transformation of the Creative Industries

Technology has disrupted and transformed the way content is created, distributed and consumed. In this session, find out how four creative businesses have tapped into cutting-edge technology to drive their business and the wider industry. In a world skippable ads, Mahindra Racing used immersive tech to create a compelling campaign that was memorable and engaging. Igloo Vision designs, develops and delivers immersive 360° projection domes, projection cylinders, to create shareable VR experiences. VTime offer a VR social network that allows anyone, anywhere to spend quality time with family and friends in virtual reality. Using proprietary AI models, Logically is uniquely able to accurately determine the credibility of news across various platforms. Kycker's online platform acts as an integrated digital hub and a career management tool for independent artists to become a sustainable music business. Virtual Presence's 3D holograms can take live experiences to multiple geographies at the same time.

**0900-1700**

Exhibition and B2B spaces open

12 December 2018

Hackathon Zone, Hotel Imperial Lawn

**1100-1700**

Experience the excitement of a live speed hacking contest, designed by experts from the Fintech ecosystem. Teams of developers, designers, innovators and creatives drawn from the UK and India's Fintech start-up communities will come together to compete in a day-long creative problem-solving event.

Come and watch the groups pitch their ideas to a panel of experts, and see one team win the opportunity to translate their ideas into practice with the help of leading Fintech practitioners in India.
