

EU4Digital

EU4Digital Facility

Eastern Partnership Trade Panel

**Digital solutions to foster
trade in Eastern Partnership**

Funded under the EU4Digital
Initiative of the European Union

Arturas Piliponis, Team Leader EU4DIGITAL Facility (EY)
Online conference | 22 September 2020

EU4Digital Facility results (2019-2021)

1. TELECOM RULES

- Achieving **common roaming space**
- **NRA independence** strengthening
- Develop **coordinated frequency distribution strategies** for freeing 700MHz

2. TRUST & SECURITY

Cross-border **eSignature pilot** and regional framework for **cross-border eServices** for business, **cyber-resilience strategies**

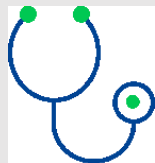

3. eTRADE

Three pilots - cross-border **eTrade**, **eCustoms**, and **eCommerce**, preparatory actions to pilot **Digital Transport Corridor**

4. ICT INNOVATION

Actions to favour development of **ICT research**, **start-ups** & **innovation ecosystems**

5. eHEALTH

Harmonised frameworks for **eHealth**, among EaP partner countries and with the EU

6. DIGITAL SKILLS

Designing common methodology for measuring and forecasting **digital skills and competence framework** for SMEs

COMMUNICATION

Building EU4Digital brand to streamline **visibility** and leverage impact of EU cooperation across the digital economy and society in the EaP

EU4Digital

Vision of paperless cross-border trade

Technical pilots under **EU4Digital Facility | eTrade** cover:

- **Exchange of electronic data** - CEF Building Blocks (eDelivery, eInvoicing)
- **Faster border crossing and delivery of goods** - advanced mechanisms for customs information exchange (SEED)
- **Eliminating obstacles for cross-border electronic commerce** - eCommerce pilot
- **eLogistic data flows across the physical transport corridor from Baltic to Black Sea** - action plan for piloting Digital Transport Corridor

eDelivery pilot

eDelivery pilot will test the ground for **paperless information exchange** in selected Eastern partner countries using established **EU-wide solution and standards**.

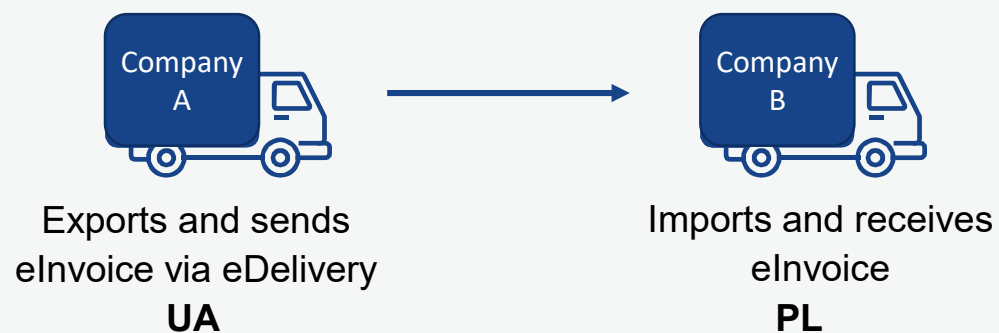

Solution to be piloted: CEF eDelivery Building Block

Use case: invoice data exchange between cross-border trade partners in Peppol eDelivery Network

Geographical scope: Ukraine - Poland

Current progress: testing phase has started and trainings

Launch: 9 October 2020

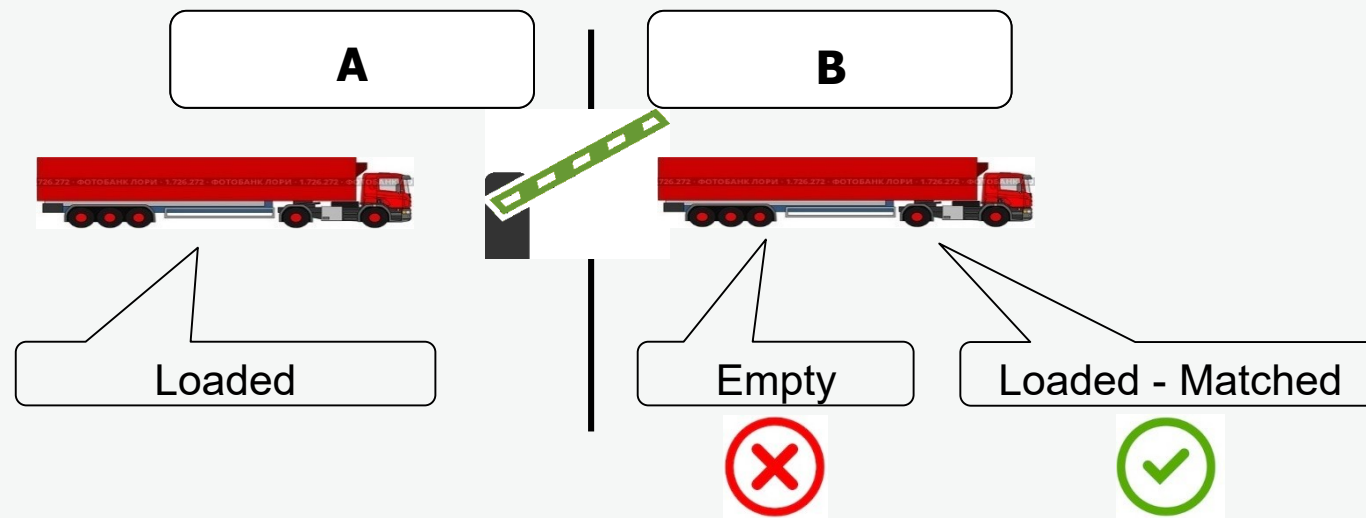

eCustoms pilot

Customs information exchange pilot will facilitate **customs-to-customs timely data exchange** and demonstrate the improvement in release time of goods as well as introduce advanced customs risk management processes.

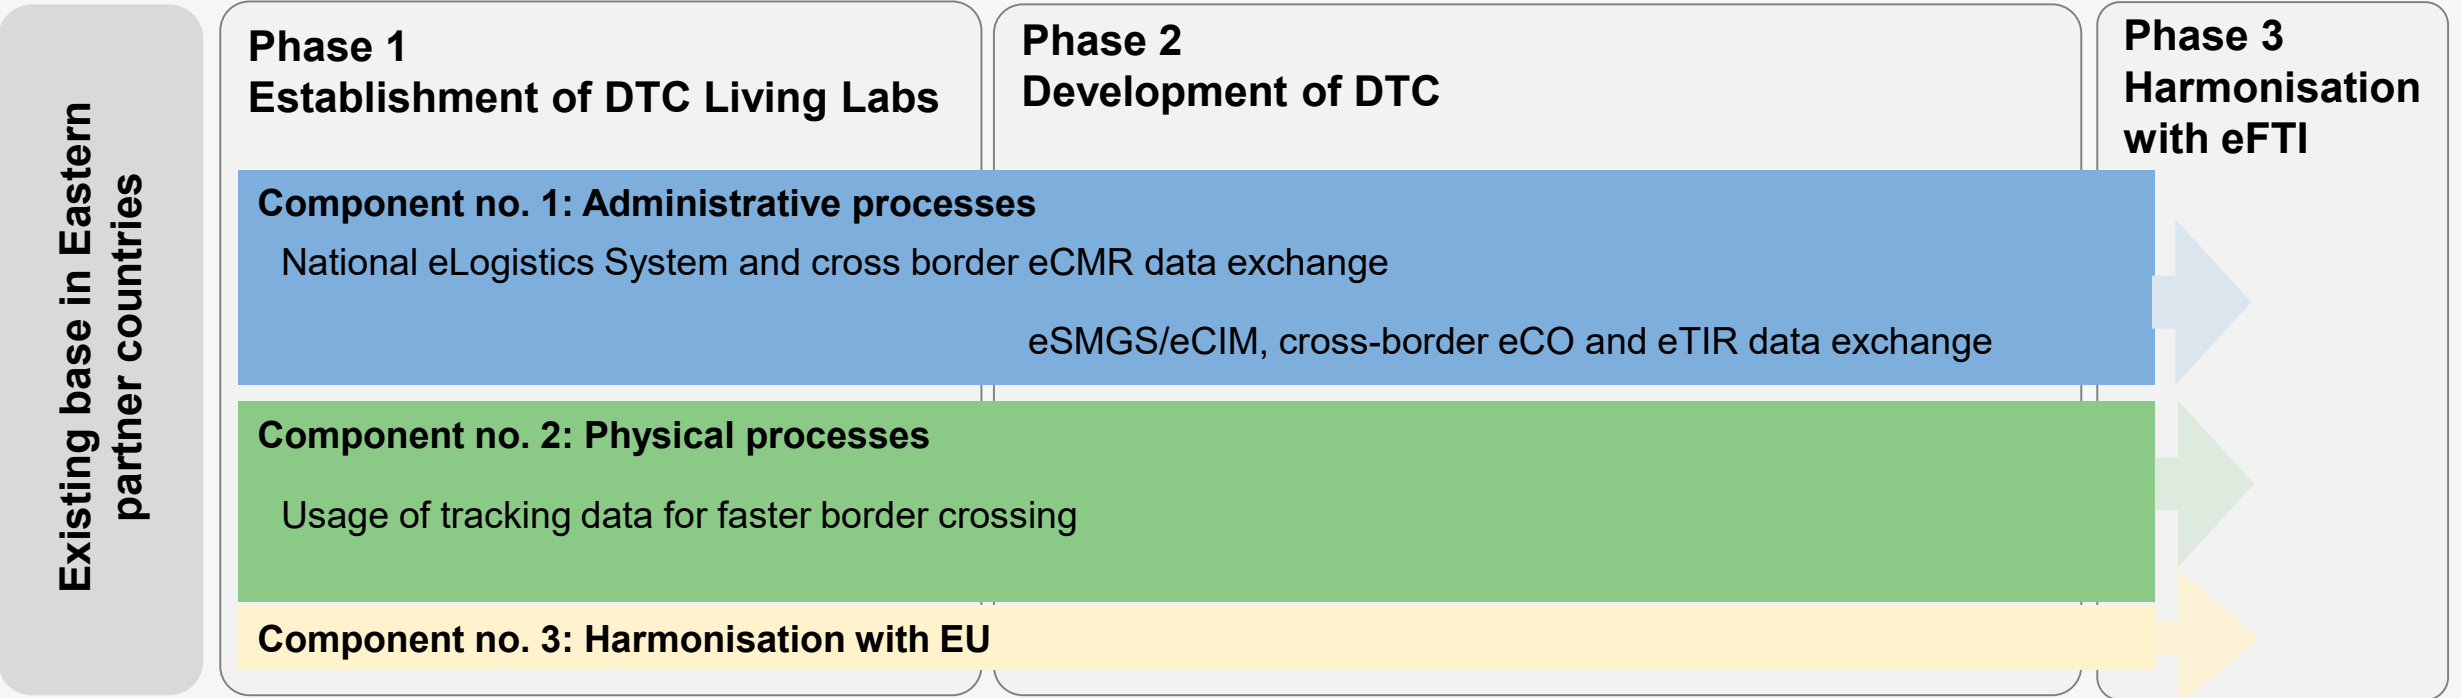

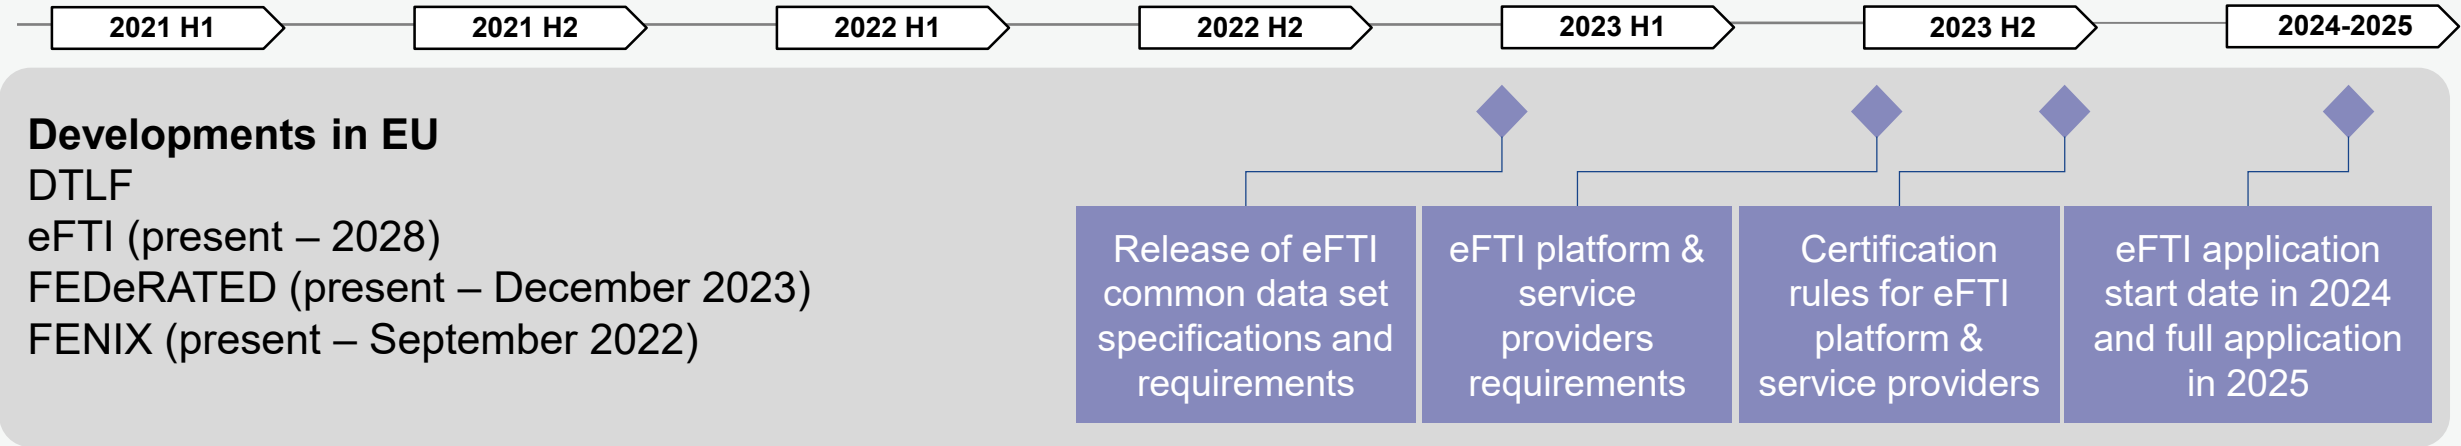

The pilot will be performed between selected border crossing points of **Belarus and Lithuania**.

Three data exchange related scenarios are planned to be piloted using SEED (Systematic Electronic Exchange of Data) solution:

- ▶ Empty Trucks
- ▶ Exchange of exit data from transit/export declarations (limited data set)
- ▶ Full declaration data set from the transit and export declarations for volunteers

Roadmap for Digital Transport Corridor

Thank You
