Proposals of the Russian Federation for the draft NDPTL Road Map

NDPTL Connectivity and regional cooperation

- *Improve regional transport connectivity*
- *Northern Dimension, Arctic Council and BEATA cooperation*

Automatization and digitalization of transport

- *ERA-GLONASS and E-call cooperation*
- *Sustainable urban transport*

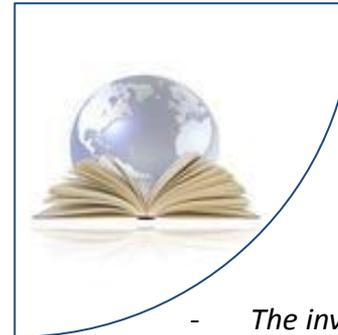

Road safety and decarbonization

- *Increase of road safety in NDPTL region*
- *Development of ecological transport*

Transport Education

- *The involvement of transport universities to NDPTL scientific research*
- *Professional training for personnel of transport sector*

The efficiency of the transport system, its security, development and implementation of modern technologies closely depend on personnel training

MINISTRY OF TRANSPORT
OF THE RUSSIAN FEDERATION

Thank you for your attention!
